About Us

Founded by Quality Assurance veterans with **75+ years** of combined leadership in the pharmaceutical and biotech industries, **AXYGEN PHARMATECH** is a **GxP Training, Auditing, Quality & Consulting** company dedicated to delivering compliance-driven, practical, and forward-thinking solutions. We are now proudly part of the **Fixity Group of Companies**, enabling us to scale our global presence.

We bring first-hand knowledge from global regulatory inspections (**USFDA, EU-GMP, WHO**), greenfield setups, and complex compliance challenges translating that experience into measurable results for our clients.

Our Mission

To be a reliable and results-oriented partner supporting pharmaceutical and biotech companies with customized GxP solutions that foster compliance, efficiency, and long-term growth.

Core Services

Audits | Remediation

Regulatory readiness assessments, internal audits, vendor audits, and gap analysis aligned with international standards and remediation.

Consulting

Strategic quality systems development, remediation support, and compliance optimization tailored to your operations.

GxP Training

Customized GxP, GMP, and data integrity training with real-world examples—suitable for all levels of experience.

Talent Management Solutions

Connecting organizations with GxP-ready talent for QA, QC, Manufacturing, Validation, and Regulatory Affairs roles.

Leadership & Career Mentor

The future of your leadership begins with the choices you make today. We help to Unlearn, Learn and Re-learn.

Computer System Validation (CSV)

Compliance assurance for software and digital systems under GAMP 5 and data integrity guidelines.

Core Products

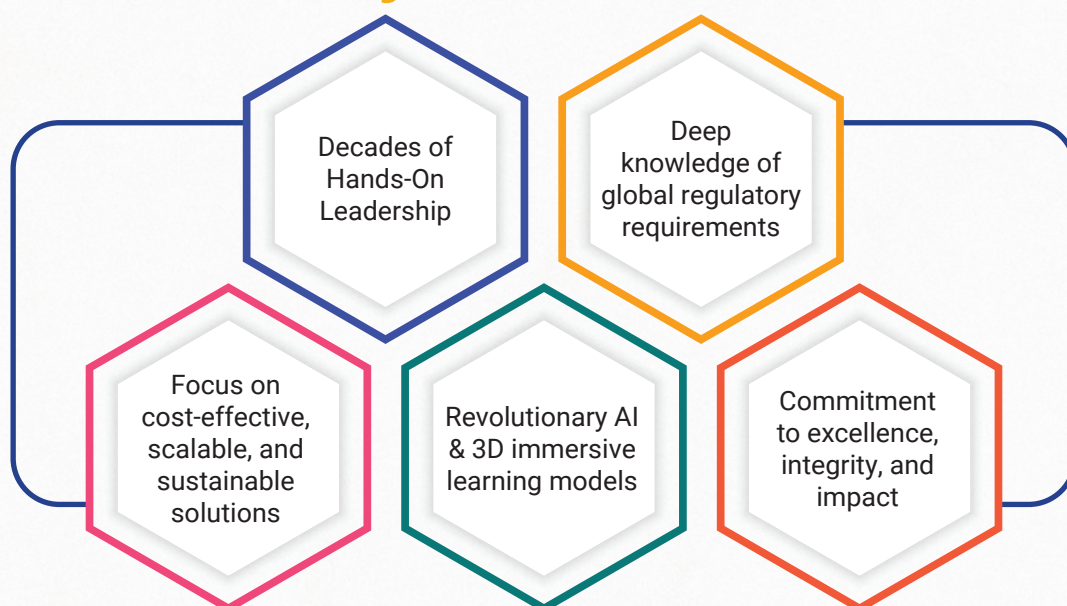

3D Immersive Learning Modules

For GxP operations—bringing real-world scenarios into a virtual environment where teams can practice critical tasks and build confidence without operational risk.

AI-Integrated Quality Dashboards

Empower leadership teams with real-time insights, predictive analytics, and intuitive visualization tools for sound, scientific, and data-driven decision making in AI era.

Why Choose Us

Our Achievements

Successfully led multiple **USFDA, EU** and other regulatory inspections.

Built quality systems for greenfield projects across Oral Solid Dosages, Injectables, API, and Biotech facilities.

Trained **10,000+** pharma professionals in GxP, regulatory trends, and compliance strategies.

Reduced quality incidents and deviations by up to **40%** through QMS improvements.

Enabled clients to achieve faster regulatory approvals and market readiness.
